Student User Manual

Website Kaise Use Karein — Step by Step Guide

Is manual mein aapko batayenge ki enrollment ke baad website pe login karke Risk Calculator, Stock Scanner, Trade Vault, aur TradingView Indicator kaise use karein.

1 Login Kaise Karein

Enrollment complete hone ke baad, आपको email mein आपका **Student ID** aur **Password** मिल जाएगा. Login करने के लिए:

- 1 Website kholein**
Apna browser (Chrome, Safari, waghera) kholein aur website ka address type karein.
- 2 'Login' par click karein**
Website ke menu mein upar 'Login' option par click karein.
- 3 Student ID aur Password daalein**
Jo email mein mila tha, wahi Username aur Password yahan daalein.
- 4 'Login' button dabayein**
Sahi details hone par aap seedhe apne Dashboard par pahunch jayenge.

Note: Agar Password bhool gaye ho: Login page par 'Password bhool gaye?' link par click karke apna email daalein — naya password link mil jayega.

2 Dashboard Ka Overview

Login hote hi आपको अपना Dashboard दिखेगा, jisme ye cheezein hoti hain:

- **Student ID** aur आपके enrolled products (Scanner & Calculator / Indicator) ka status
- **Password Change** section — अपना password kabhi bhi badal sakte hain
- 3-4 tabs: **Risk Calculator**, **Stock Scanner**, **My Trade Vault**, aur (agar liya ho) **TradingView Indicator**

3 Risk Calculator Kaise Use Karein

Ye tool आपको batata hai ki kitne shares kharidne chahiye taaki आपका risk control mein rahe.

- 1 'Risk Calculator' tab kholein**
Dashboard ke upar wale tabs mein pehla tab.
- 2 Stock Name daalein**
Jis stock mein trade karna hai, uska naam likhein (e.g. RELIANCE).
- 3 Trading Capital aur Entry Price daalein**
Apni total capital aur jis price par kharidna hai, wo daalein.
- 4 Stop Loss aur Reward Multiple select karein**
Stop Loss price daalein, aur Reward Multiple (1:1, 1:2, waghera) chunein.
- 5 Setup Type aur Risk % choose karein**
Normal/Scalping setup, aur capital ka kitna % risk karna hai select karein.

6 Discipline Checklist tick karein

Trend Check, Volume Check, Execution Confirm — teeno tick karna zaroori hai.

7 'Calculate & Log Position' dabayein

Turant aapko Shares to Buy, Total Risk, Target Price, aur Forecast Profit dikh jayega — aur ye 'My Trade Vault' mein bhi save ho jayega.

4 Stock Scanner Kaise Use Karein

Admin jab bhi koi naya stock signal broadcast karta hai, wo yahan dikhta hai. Signal dekhne ke liye aapko **4 filters select karna zaroori hai** — jab tak sab 4 select nahi karenge, koi stock nahi dikhega.

- 1 'Stock Scanner' tab kholein**
Dashboard ke tabs mein doosra tab.
- 2 Criteria chunein**
'Approaching' ya 'In Zone / Reacting' mein se ek select karein.
- 3 Zone Type chunein**
'Demand' ya 'Supply' mein se ek select karein.
- 4 Mode chunein**
'Standard Mode' ya 'STDS Mode' mein se ek select karein.
- 5 Timeframe chunein**
Daily / Weekly / Monthly / Quarterly / Half Yearly / Yearly mein se ek select karein.
- 6 Matching stocks dekhein**
Jaise hi chaaron filters select ho jayenge, us combination ke saare stock cards neeche dikh jayenge — stock name, criteria, zone, mode aur timeframe ke saath.

Tip: Alag-alag combination try karke dekhein — 'Reset Filter' button se sab filters ek saath clear ho jayenge.

5 My Trade Vault Kaise Use Karein

Yahan aapke saare Risk Calculator entries record hote hain.

- 1 'My Trade Vault' tab kholein**
Dashboard ke tabs mein teesra tab.
- 2 Apna trade history dekhein**
Har trade ki Entry, Stop Loss, Target, Quantity, aur Risk amount table mein dikhegi.
- 3 WIN/LOSS mark karein**
Trade complete hone ke baad, us row mein WIN ya LOSS button dabakar result save karein.
- 4 CSV Download karein**
'CSV Download' button se apna poora record Excel file ki tarah download kar sakte hain.

6 TradingView Indicator Access (Agar Liya Ho)

- 1 'TradingView Indicator' tab kholein**
Sirf un students ko dikhega jinhone Indicator plan liya hai.

2 Apna TradingView Username submit karein

Jo username aap TradingView pe use karte hain, wahi yahan daalkar Submit karein.

3 Admin approval ka wait karein

Status 'Pending Approval' dikhega — admin manually आपको TradingView par access denge (24-48 ghante lag sakte hain).

4 Access Granted hone ka wait karein

Status 'Access Granted ■' hote hi aap TradingView par indicator use kar sakte hain.

7 Password Change Kaise Karein

- 1 Dashboard ke upar 'Password Change Karein' section kholein**
Us par click karein — box khul jayega.
- 2 Current Password daalein**
Apna abhi wala password daalein.
- 3 Naya Password daalein aur Confirm karein**
Naya password 2 baar (Naya Password + Confirm) daalein.
- 4 'Password Update Karein' dabayein**
Password turant update ho jayega — agli baar isi naye password se login karein.
